

CNC Engineering Apprentice

Tewkesbury, Gloucestershire

(£6.40 per hour in year 1 on a sliding incremental scale)

ABOUT HELANDER

Helander are a trusted and recognised key provider of precision components and engineering solutions to the aerospace and defence, oil and gas, nuclear construction, marine & industrial sectors. Helander has over 48 years' experience working to the highest industry standards, controls, and compliance.

We are looking to train and support two CNC Engineering Apprentices this year to join our expanding team.

Helander still operates with family values at heart. It has a positive, approachable and welcoming culture. The company have recently made significant changes through Lean manufacturing improvements, including external training, new lay out and purchasing capital machinery.

The **CNC Apprentice** will work alongside experienced engineers to gain expertise and the required competency level. You will learn skills, knowledge, and processes to produce quality precision engineered components to detailed specifications within strict production timeframes and tight tolerances.

THE CNC APPRENTICE WILL GAIN EXPERIENCE / KNOWLEDGE IN:

- Setting, operating and programming CNC milling and CNC Turning machines to include 5 and multi axis machines
- Attain an Engineering qualification from City and Guilds / HNC or similar.
- Speeds and feeds for different raw materials; controls; programming; safety and tooling
- FANUC / Mazatrol control language
- Lean Manufacturing
- CMM inspection and manual measuring tools and techniques.

A FULLY COMPETENT AND QUALIFIED CNC APPRENTICE WILL HAVE THE ABILITY TO:

- Program machine tools
- Operate CNC milling and CNC turning machinery.
- Set fixtures and fittings.
- Working to tight tolerances
- Use manual measuring equipment.
- Competently read manufacturing drawings
