

QUALITY ENGINEER

Tewkesbury, Gloucestershire
£36 - £38k

ABOUT HELANDER

Helander are a trusted and recognised key provider of precision components and engineering solutions to the aerospace and defence, oil and gas, nuclear and commercial bronze sectors. Helander has over 48 years' experience working to the highest industry standards, controls, and compliance.

We are looking for experienced Quality Engineer who can join our expanding team working closely with Operations/Shop Floor, Customers and Suppliers. Helander still operates with family values at heart. It has a positive, approachable, and welcoming culture.

The **Quality Engineer** will work directly alongside the QHSE Manager and will be responsible for developing and leading quality related improvement programmes. You will be actively involved in the NPI process ensuring all Quality requirements are understood and implemented including generation of downstream QA documentation and take an active role in 3rd party supplier audits.

THE QUALITY ENGINEER WILL BE:

- Minimum HNC Mechanical/Manufacturing or Production Engineering qualified
- External Auditor trained.
- LEAN Six Sigma Green Belt

THE QUALITY ENGINEER WILL HAVE EXPERIENCE / KNOWLEDGE IN:

- Applying quality tools and techniques such as RCA, PDCA, R&R, SPC, 8D
- Complete quality elements of NPI process
- Ability to competently read and understand manufacturing drawing requirements including geometric tolerances.
- Create quality assurance documentation (FAIR, ITP, Quality Plans)
- Preferably have CMM programming skills (Software – Aberlink)
- Working knowledge of PPAP

This role would suit an individual with previous experience in quality assurance with great motivational, organisational, and planning skills. Preferably within a machine shop environment and in the aerospace and / or nuclear sector. You will have a good eye for detail and methodical approach.
